NEW RECORD ATTENDANCE AT FAIR IS EXPECTED TODAY

Yesterday's Figures a Hundred Per Cent. Greater Than on Opening Day Last Year—Fine Weather Promised for Today—Visiting Physicians Will Be Guests of the Exhibition Association This Afternoon—Dog Show Will Open Today and Will Be Fine Exhibit.

Grand Stand paid admissions	3196
Cash Receipts.	
To the Grounds	\$2,797.25
To the Grand Stand	799.00

Opening Day Last Year.

Paid admissions to the Grounds	4605
Paid admissions to the Grand Stand	1800
Total cash receipts	\$2,333.25

In spite of the fact that threatening clouds hung low all day yesterday, Opening Day at the exhibition drew nearly double the number of people that it did last year, and the cash receipts exceed those of a year ago by \$1200. The moral is that the Edmonton exhibition is now beyond the vagaries of the weather.

Today is Farmers' Day at the Fair. Just watch the records broken for attendance. Everything is conspiring to make today one of the big days at the exhibition. Fine weather is here at last, and that means a whole lot. There are hundreds and even thousands of visitors coming into the city that will visit the grounds today. This afternoon the doctors in attendance at the medical convention are going to the exhibition, and they will help to swell the numbers. The races will attract thousands. There are seven of them on the card. The military tattoo was such a splendid success last night, that thousands more will want to see it tonight. All in all, those who go to the grounds today will have a great time from all present indications.

The executive of the exhibition had another special meeting last night and made further alterations in the program for the horse show ring before the Grand Stand. It was decided to put the entire program scheduled for yesterday over to Saturday afternoon and divide up Saturday's scheduled events among the earlier days of the week.

Today will be a big day for the dog fanciers of the city and province. Most of the local owners who are exhibiting the pride and hope of the family will take their pets out to the grounds early this morning by special street car. Judging will start in the dog building at ten o'clock. There are about 650 entries, and there will be 322 dogs in the building, so that a fairly exciting time is assured.

Judging in the Agriculture, horse, cattle, sheep and swine sections, and from the grounds have been of the greatest interest to the men who are most interested in these things will be kept busy following the opening of the fair.

So far transportation facilities and from the grounds have been of the greatest interest to the public. Yesterday was maintained without a hitch yesterday, and if the record set can be repeated, there will be no trouble during the week. There will be no ground for complaints. The new platform for passenger cars has been a great improvement over the small one in use last year and has a good deal to do with the success of the fair.

The manufacturers' building drew many of yesterday's visitors and is well worth a visit, as all the exhibits have been arranged in a most beautiful style, as well as providing many of an instructive nature.

On the grand stand, almost in front of the grandstand, are always a great magnet to visitors, and the 1912 edition of the grand stand is to be the best ever. The military tattoo is an innovation and one that will be remembered by all who see it. The playing of the bands, the flicker of the torches, the hats and uniforms all combine to form an appeal to the eye and ear that is well nigh impossible to resist.

That greeted this feature last night, at its first presentation in Edmonton, it is the most popular thing at the exhibition.

NOBILITY OF HORSEFOLD PRESENT AT THE FAIR

Some Fine Strains of Animals Are to Be Seen in the Horse Stables. Suite Showing Horses They Have Been Working Every Day Up to Date.

In the horse stables there are some fine animals. The importance of the Edmonton exhibition is brought out by the manner in which it has attracted so many from the eastern provinces. The animals, too, have an interest of their own and many have reason to hold their heads high. Some of them belong to the nobility class and have won many ribbons and champion titles. Others are the result of expert judges at other great horse shows.

Dr. Henderson, of Carberry, Man., has a fine exhibit of Belgians, including Culbatur, a 3 year old chestnut,

ENTERTAINMENTS

BIG CROWD GREETS PRINCESS.

At the Exhibition grounds in the afternoon, Colossal Hall, many of the exhibits were under construction, notably the appearance of the world-famous Princess Victoria, the small-talented little performer on the stage today. This diminutive model of the Queen of England, dressed in a gown with the hearts of her Reavers, and captured them from the moment of her first appearance, was a great hit with the young girls of age, for she is only 2 1/2 inches in height and weighs but 19 3/4 pounds, and artistically marvel.

The crowning number of Princess Victoria was the beauty of the day, "The Girl With Silver Eyes," which she sang with rare feeling and perfect tone, colouring the name of the "Minature Queen." One of the many whimsical features of the day was the girl's appearance in a handsome model evening gown of blue satin, and perfectly made especially for the princess by Worth Bros., of Paris, the well-known costumiers.

ABLE ADDRESSES AT CONVENTION

(Continued from Page 1)

to save and prolong life, an effort which we are making to the best advantage to make their fellow men happy.

Paper by Dr. Cobbold.

A paper which was very well received was one concerning the importance of the work of the Royal Canadian Medical Association. The author, Dr. Cobbold, said that the importance of midwifery had to face was that infection had sometimes been imported to the patient and midwife before the patient was born.

Dr. H. del. Hamond presented a paper on the subject of malnutrition in which interesting papers, illustrated by excellent lantern slides, were given. Dr. Brown, of London, by the Temperance and Moral Reform League.

A number of interesting exhibits were shown in the hall. Not very startling to Edmonton were the samples of dirt taken from joint samples of dirt taken from the same districts supplying the city. Some of the specimens showed a very dirty condition of the dirt.

Another interesting exhibit was the malnutrition camp at the Edmonton Hospital.

Malnutrition in Edmonton. Dr. Whelton, medical health officer of Edmonton, gave a paper before the section on preventive medicine, dealing with who-who cases, as observed during the past year. He stated that no per cent of life was exempt to any degree from danger of malnutrition, and that many of the other infectious diseases as

as regards the incidence of the disease, were more prevalent among the many of the other infectious diseases.

As regards the incidence of the disease, it was observed that the patients were mostly of middle age. The preponderance of males was due to many facts, namely, more males than females, afford protection by reason of their associations and occupations, and the fact that a number of males over 40 years of age are in the community.

Of the total, only five were school children, and all of these were in Edmonton, South, where previous to amalgamation, vaccination had been badly neglected by the parents, and the children which were not discovered before they had recovered the disease, were those who had been infected after these children had infected their unvaccinated parents and other adults, who, in turn, had infected many unvaccinated children.

It was observed that the number of unvaccinated children might have swelled the epidemic of 1888 in Manitoba, as the number of cases reported were under 10 years of age.

South Side Carceration. The influence of the school board in Strathcona in failing to execute the authority given by the provincial health act regarding vaccination of school chil-

dren," commented Dr. Whelton, "was really criminal. On the other hand too much credit could not be given to the parents, who for the most part had conscientious and upright backs up to the task of fulfilling the requirements of the law."

Dr. Whelton and Murray MacCormick, of Kitchener, Ont., are visiting in the city, guests of their uncle and aunt, Mr. and Mrs. MacKillop, Laird street.

THE PORTERHOUSE STEAK TREATMENT OF TUBERCULOSIS

Dr. H. A. McCallum, London, Ont., Advocates Use of Solid Foods.

BREAD AN ESSENTIAL FOR EVERY PATIENT

Executive Council Named—Public Lecture in High School Tonight.

"The porterhouse steak treatment of consumption," was advocated before an audience of 1,000 at the annual meeting of the Canadian Medical convention today by Dr. H. A. McCallum, of London. "The duty of the doctor and nurse," said Dr. McCallum, "is to teach a patient a touch of abstinence, which shall last all through life, for the cure of consumption is a life-long process." "Give bread to the patient to cure the patient," was the key-note of Dr. McCallum's advice to his fellow-medical men. In cases of consuming the first care of the physician should be to give the patient solid food in all cases attended consumption. To this end the patient should be given cream, meat, to one also his bread, and all his nerve force in the digestion of food.

Bread as a Cure.

Bread—the staff of life—which many tubercular patients say they cannot take, was an absolute necessity in diet, Dr. McCallum asserted. He insisted on a diet of three or four meals a day, in which bread should be eaten. In regard to diet was to lay stress on eggs and milk. Instead of regarding these as luxuries, they should be regarded as accessories to a good square meal.

"It is not for me to prove to me," Dr. McCallum stated emphatically, "that eggs make a consumptive patient gain weight, but it is not a weight producer. The great weight-producing factor in consumption is the egg, in addition to the fact that eggs don't cause a man to gain weight there is the egg, the egg, the egg, the egg, the egg, the egg, with the resultant sick stomach and mental nausea."

Advise Good Foods.

"It is a temptation to me when one of my nurses decided to beat another nurse by doubling the bread ration. The result was that in week every patient with the double bread ration gained two pounds weight. The result being that the nurse was a fat, stout, secure meal. Every man of forty years of age had no more pleasure than to eat a large meal of bread and meat, with the resultant sick stomach and mental nausea."

Confidence First Necessary.

"The personality of the doctor is an important factor in the success of the first necessity for a doctor, for confidence breeds hope. A few words of the kind will make a patient willing to take the dead out by night. Literally they find it best to steal the corpse away from the doctor's office. Patients. It is an outrage to take a man who has been fighting this disease for years and tell him he must die because he is too weak to bear the strain. Unless they help the patient to eat, unless they feed the patient, the doctor points to his thumb nail. I never tell a patient he is too weak to eat, but how much health he has to eat with care. Confidence breeds hope and this kind of doctoring art there is to be found in the world."

Infection Not Dangerous.

It was a striking fact that 99 per cent of the tubercular patients sent into hospital in ordinary life people had a frightful malady concerning tuberculosis. He always told people that was the reason in coming into contact with a consumptive patient, so long as rules of cleanliness and sanitation were observed, there was no danger mind swimming in a bath full of tuberculosis. In combatting the disease the personal resistance was everything.

Appeals to U. S. House.

London, Aug. 13.—The Daily Chronicle, commanding editorial today on the Panama canal bill recently passed by the American Senate, advises that if the bill becomes law, it will be more strictly limited, a preference to much shipping, though in conflict with the spirit of the bill, and that the results would be practically unobjectionable. After expressing the hope that it will not be passed, the paper goes on to say to the Hague tribunal, the newspaper says: "The United States is doing a great service to the world in opposing the Panama canal. It would be a pity for its credit to be tarnished by an attempt to sharp practice or verbal evasion of its meaning."

District Attorney Ford Addresses Jury in Injury Bribery Case at Los Angeles.

Men and Gladiator of the Courts.

Los Angeles, Calif., Aug. 12.—Afterwards denouncing Clarence S. Darrow as a corruptor of men and law, the district attorney of Los Angeles, Cal., today, in a trial which has been adjourned, charged the alleged bribery of jurors to Leland Stanford, designated as a "Christian witness of lesser importance." Time after time Ford assailed Darrow for his supposed teachings or his conduct of the McNamara defense. Throughout the trial he had been the country's foremost champion of organized labor, listened with apparent interest to the testimony of the country's foremost champion of capital, and the prosecutor's denunciation of the defendant is that Darrow, by his teachings, was responsible for the blowing up of the Pullman cars, which started the strike.

The chief point of the prosecutor's defense is that he was not guilty in his charge that Darrow, by his teachings, was responsible for the blowing up of the Pullman cars, which started the strike.

He is a man of forty years of age who has no more reason now for making the naval policy of the country than he had when he was 18 years old.

Mr. Martin declares that the Canadian government has been instrumental in getting their fest in England that they have been instrumental in getting their fest in Canada. One-half of the Canadian people were in favor of separation and safety of the Canadian nation.

The United States was the exit of the Canadian nation.

"Mr. Barrow's speech may have been delivered for a week, Wilson's speech for a week. They are charged with receiving a reward for their work.

Yesterday the Toronto police received word that two officers had been hurriedly dispatched to Toronto to assist in the search for the missing persons. Supt. Miller, of the police, said that the two officers were sent to assist in the search for the missing persons at Vancouver and Chicago were still missing.

The local superintendent informed the police that the two officers were still missing.

Mr. Foster has been the star performer in the trial, and he and his wife and the two officers who were missing are still missing.

The chief point of the prosecutor's defense is that he was not guilty in his charge that Darrow, by his teachings, was responsible for the blowing up of the Pullman cars, which started the strike.

Detroit, Mich., Aug. 12.—The arraignment in the circuit court of the eighteen members of the Detroit council charged with having accepted or promised to accept them.

"If there was any 'frame up' in this case, it was to get rid of Mr. Frank and Lockwood," said Mr. Foster, the district attorney.

The theory of the defense that Franklin and John H. Hamilton, former aldermen, and a son of the late Alderman Darrow, was ridiculed by the prosecutor.

A young girl aged fourteen was taken from a Chinese restaurant on Jasper Avenue by the Neglected Children's Aid Society. The girl, it was thought by the authorities that her surroundings were not of the best, as she was too young to be working there.

BOYS LEFT ST. ALBERT SCHOOL.

Two young boys, Kavler Granson and Jack Logan, by name, were picked up at the St. Albert school yesterday morning, wandering about the streets. When they were taken to the central station, it was learned that they were from St. Albert, and were pupils of the St. Albert school. The two boys, it was said, had been absent from school for several days and their parents had become worried over them. They are now held at the station, however, awaiting the arrival of their parents.

AN ATTEMPTED BURGLARY.

At about two yesterday morning, by the breaking of the glass in window, A. Shaw, a secondhand dealer, located at 1020 10th Street, N.W., on the avenue, descended to investigate. On finding that the door and two men had broken into the premises and were proceeding to help themselves, he called for help. The proprietors coming the men made hasty exit, dropping their tools and leaving their heads. Up to the present time nothing has been heard of the men, who have apparently valuable silver in the store, and it is thought that that was the magnet that attracted the thieves.

COMPLAINT OF PICKPOCKETS.

The plain clothes department was soon on the scene and several people complaining about having their pockets picked up every morning from 6 a.m. upwards were reported lost. A number of them, however, claimed that it is stated, were the victims last night. It is believed that the pickpockets succeeded in getting away with a fairly large amount of money.
